Steakhouse with Romanian Angus beef

THE CASA ANGUS STORY

We are two animal science engineers and former university classmates who found each other back to Sibiu, into the heart of Angus cattle.

From our years spent in the Angus world, we came away with a simple belief: Romania can produce very **good beef**. We wanted those who walk through our doors to discover this for themselves. That is how Casa Angus started.

We left Sibiu behind and moved to Bucharest. We built everything step by step, with a lot of hard work, many journeys and the desire to do things as well as we could.

Today, we are happy to put **Romanian Angus beef and local products we believe in** on your table. And we are still proud of the same thing we believed in from the beginning: **Romania produces good beef. We simply want you to discover it.**
